Table of Contents

The following pages include summaries of the most important information on selected Operational Services Division (OSD) contracts related to the management, storage and collection of hazardous materials. These contracts were established with input from other state and local agencies to facilitate environmental compliance and proactive environmental programs in the public sector. For more information about any specific contract, please check the Commonwealth's procurement web site at www.comm-pass.com. Search by contract number identified on the following pages or browse by purchasing category. If you have any questions or problems with the Comm-PASS site, please call the **Comm-PASS help desk at 1-888-MA-STATE**. For more information on environmentally preferable products and services, please visit the environmental procurement web page at www.magnet.state.ma.us/osd/enviro/enviro.htm.

Hazardous Material Collection Services

Contract Information

Contract #:	ST9J213A
Expiration Date:	10/6/2000 with 7 possible extension of up to one year each
OSD Update #:	00-29

Contract Summary

A Statewide Contract for the Collection of Hazardous and Medical wastes has been awarded by the Operational Services Division (OSD) and Department of Environmental Protection (DEP). Contracts have been awarded in the three categories identified below:

Category I Hazardous Material Collection and Disposal

- Hazardous material collection and disposal, including but not limited to, automotive wastes, various chemical wastes, asbestos-containing wastes, and compressed gas cylinders, as well as lab packing services
- Abandoned/unidentified waste sampling, analysis and profiling
- Waste management related labor
- Emergency response
- Training related to the handling and management of hazardous materials

Category II Hazardous Material Collection Events

- Hazardous material collection events, including all set up, materials and handling necessary to conduct such events at municipalities and other sites throughout the Commonwealth

Category III Medical Waste Collection and Disposal

- Collection and disposal of medical/infectious/regulated wastes, including, but not limited to, medical waste as defined in 40 CFR Part 259.30.

Contract Term

This contract has been awarded starting October 7, 1999 through October 6, 2000 with seven (7) possible extensions of up to one (1) year each. Total contract term with all extensions runs until October 7, 2007.

AWARDED CONTRACTOR INFORMATION - HAZARDOUS AND MEDICAL WASTE COLLECTION

The following Contractors have been awarded a contract in the identified categories. Be advised that Contractors have been awarded in specific categories and are only permitted to provide services in those categories for which they have received an award. Also, some Contractors may only be awarded in a specific district and may only provide services in that district. (see definition below)

*In Category 2, regional awards have been made in the East and West. These regions are defined as follows: **East:** MHD Districts 3-5, Martha's Vineyard, Nantucket **West:** MHD Districts 1-2

These regions are to be used to determine which Contractors may provide service in the specified areas. Please refer to the OSD Update for a more detailed listing of these Districts

Hazardous Material Collection & Disposal – ST9J213A

Category I Materials (Hazardous Waste Collection and Disposal)

The following materials are those which will be collected from all participating facilities at the prices identified in the OSD Update. Please note that this contract allows Departments to request the collection of additional materials not listed at prices to be negotiated between awarded Contractors and Departments. Please see the OSD Update for pricing on profiling and emergency response. (awarded contractors = Clean Harbors & Triumvirate, see p.4)

Automotive Products <ul style="list-style-type: none"> Motor oil Motor oil contaminated with water > 5% Motor oil contaminated with halogens Used motor oil contaminated with PCBs Recyclable fuels (MA 97) Spent antifreeze Used oil filters oil saturated rags or absorbents solvent saturated rags or absorbents Automotive Batteries 	Paint & Paint Products <ul style="list-style-type: none"> Paint, latex Paint, oil-based Stains and wood finishes 	Oxidizers <ul style="list-style-type: none"> Liquid oxidizers Solid bulk oxidizers (e.g. pool chemicals)
Contaminated Soil <ul style="list-style-type: none"> Soil contaminated with petroleum hydrocarbons, less than 100 CY Soil contaminated with solvents, less than 10 CY Soil contaminated with below TCLP levels of heavy metals (excluding mercury) less than 10 CY 	Lab Packs <ul style="list-style-type: none"> Lab pack pesticides/herbicides Lab pack other chemicals Aerosol cans 	Other Chemicals <ul style="list-style-type: none"> Flammable Liquids Bulk⁽³⁾ Non-halogenated organic solvents Organic solvents (halogenated) Acid solutions Alkaline solutions Aqueous solutions with heavy metals

	Propane Tanks & Gases <ul style="list-style-type: none"> Propane tanks, 20 pound (gas grill size) Propane tanks, Benzomatic type Propane tanks over 20 lbs. 	

Contract Pricing

For detailed pricing in Category I please consult the OSD Update 00-29.

Sample Category I Pricing	Clean Harbors	Triumvirate
Motor oil	\$0.15 per gallon (bulk)	\$0.15 per gallon (bulk)
Motor oil contaminated with water > 5%	\$0.85 per gallon (bulk)	\$0.95 per gallon (bulk)
Aerosol cans	\$165 per 55 gallon drum	\$165 per 55 gallon drum
Flammable liquids	\$58 fper 55 gallon drum	\$90 per 55 gallon drum
Soil contaminated with petroleum	\$39 per cubic yard	\$50 per cubic yard

For all Category I materials, please note the following:

- pricing for collection does not include transportation fees except for most bulk collections
- transportation charges will decrease on a container basis the more materials which are collected on a pick up and/or through discussions with Contractors to determine whether items may be collected as part of an established "milk-run"
- separate pricing has been established for other services in this category such as profiling of unknown wastes and emergency response services and purchase of shipping containers
- various training is available from contractors – see OSD update or contact contractors

Hazardous Material Collection & Disposal – ST9J213A

Category II – Hazardous Waste Collection Events

(awarded contractors = Clean Harbors, Safety-Kleen, Beacon Environmental, General Chemical Corp., see p.4)

Pricing

Bidder Name	Awarded Region	Set-up Fee	Full Car Price	½ Car Price	Door Trade* per pound
Clean Harbors	Statewide	R1-3 \$750 R4-5 \$550 R6-7 \$2500**	R1-3 \$36.00 R4-5 \$34.00 R6-7 \$36.00**	R1-3 \$18.00 R4-5 \$17.00 R6-7 \$18.00**	\$2.50

*Door trade allows residents to deliver material directly to a facility designated by the Contractor

**R refers to the MHD district as identified in the OSD update on pages 19-20

***Eastern region refers to all locations in MHD Districts 3 through 7

****Western region refers to all locations in MHD District 1 and 2

Category III – Medical Waste Collection and Disposal

(awarded contractor= Stericycle, see p. 4)

Pricing

- Prices below will vary based on volume and/or collection frequency
- Approved containers, which are available at no cost, include:
 - ⇒ 4.0 cubic foot box with lid
 - ⇒ 4.5 cubic foot box with flap
 - ⇒ 3.8 cubic foot steritub
 - ⇒ 7.0 cubic foot steritub
- See OSD Update for other containers offered for a fee
- Pricing is also available on a per pound basis (see OSD Update)

Volume Discounts for Box and Container Pricing

- All prices are per container

Frequency # of boxes	Annually 1-2 pick ups per year	Quarterly 4 pick ups per year	Bi-monthly 6 pick ups per year	Monthly 13 pick ups per year	Bi-weekly 26 pick ups per year	Weekly 52 pick ups per year

Paint Collection Services

Contract Information:

Contract #ST9J212

Expiration Date: 4/22/2000

Contract Summary

This contract is for the collection and recycling of surplus paint and related materials such as stains and thinners. Paint materials may be collected through municipal paint or household hazardous waste collection programs and by other public sector agencies who may have surplus paint materials from maintenance activities. Paint materials must be packed in cubic yard boxes, which are collected by a licensed hazardous waste hauler and transported to a paint recycling firm in Canada or a fuel blending facility in South Carolina.

Awarded Contractor:

Clean Harbors, Inc.

Contact:

Brian Quinn (800) 282-0058

Collection Services	Pricing/Minimums	
	EASTERN REGION	WESTERN REGION
Latex and oil based paint are collected & recycled where possible	\$330 per CY box (2 CY box min)*	\$ 340 per CY box (2 CY box min)*
Used special purpose paints destined for recycling	\$370 per CY box (2 CY box min)	\$380 per CY box (2 CY box min)
Used Paint Destined for Fuel Blending	\$280 per CY box** (2 CY box min)	\$285 per CY box** (2 CY box min)
Cubic yard boxes for storage and transport	\$60 per box	\$60 per box

* Clean Harbors, Inc. is offering a **\$10 per box** price break for pick-ups of six or more boxes and **\$15 per box** price break for 10 or more.

** Clean Harbors will assess a **\$25 per item** handling charge for all non-paint related materials placed in a box destined for fuels blending.

Training sessions on paint identification and sorting may be arranged under this contract. Please call DEP contacts for details.

Fluorescent Lamp and Ballast Recycling

Contract Information	Contract #ST7J211 Expiration Date: 5/27/2000 with 1 possible extension OSD Update #: 99-3
----------------------	--

Contract Summary

This Master Service Agreement provides for the collection and recycling of fluorescent lamps and other hazardous materials such as PCB/DEHP ballasts, HID lamps, computer equipment and batteries. Mercury is a highly toxic material which, if released, can damage the human nervous system and can lead to toxic build up in fish and other wildlife. The proper management of fluorescent lamps, which contain mercury, is an integral part of the Commonwealth's efforts to continue improving the condition of our environment.

The selected vendor was carefully scrutinized to ensure ***that all mercury collected is being fully recycled*** and their environmental compliance record is good. All materials, including mercury from lamps is processed and recycled for re-use, except for certain ballast and other hazardous materials which are incinerated at a licensed facility. All users of this contract should receive instructions from the vendor on how to store and manage these materials, as well as a certificate of recycling or destruction, whichever is appropriate. All pricing listed includes the cost of packaging, transportation and written materials.

Awarded Contractor: Contact:	Global Recycling Technologies Barry Jordan at (781) 341-6080 x214 For Ordering Chris Johnson (781) 341-6080 x219 or Elizabeth Mosley (781) 341-6080 x220
---	--

Collection Services	Pricing
Fluorescent lamps, straight	9.5 cents per foot (under 7500') 8.5 cents per foot (over 7500')
Compact	\$0.49 each
Crushed/broken lamps	\$1.25/lb
Elemental mercury and mercury devices	\$4.75 / lb
HID lamps	\$1.95 each
PCB & DEHP ballasts	\$0.52 / lb
Leaking ballasts	\$1.25/lb
Batteries containing mercury	\$3.50 / lb
Batteries, alkaline w/o mercury	\$0.65 / lb
Batteries, nickel metal hydride and NiCads	\$0.95 / lb
Lead acid/ gel cell batteries	\$0.45/lb
PCB transformers testing and removal	\$1.50/lb
Computer equipment*	\$0.25 /lb or \$0.15 / lb for amounts >1200 lbs
Mercury spill kits	\$85/kit
Mercury spill kit refill Hg Absorb Powder	\$30 per 500 mg bottle

*computers which are 486 or later and color monitors will be collected at no charge

Pesticide Collection

Contract Information:

Contract #ST8J213
Expiration Date: 4/5/2002
OSD Update #: None

Contract Summary

Many pesticide applicators, households, state and municipal agencies may have stockpiles of unusable pesticides. To expedite the cleanout of these materials the Operational Services Division (OSD) in collaboration with the Massachusetts Department of Food and Agriculture (DFA) and the Department of Environmental Protection (DEP) has awarded a contract to a licensed, qualified firm to provide on-call collection services for waste pesticides. These may be suspended or canceled pesticides; unused or unwanted pesticide products; acutely hazardous, hazardous, or non-hazardous under the RCRA definition. In addition, the Contractor is required to provide technical assistance to contract users.

Awarded Contractor: Safety-Kleen (formerly Laidlaw Environmental Services)
Contact: Brenda Leonardo - 978-683-1002 x5410

Collection Services	Pricing/Minimums
Set Up & Services	No Charge
Employee Costs	\$45.00 per hour per person (based on 2 person team)
Technical Assistance	No Charge
Lab Pack Items	<p>Solids \$1.10/lb; Liquids \$9.00/gal. Minimum is 5 gal. At \$75.00 - solid or liquid</p> <p>Drum Quantity Items Pesticide Liquids \$195/drum Pesticide Solids \$250/drum Landfillable Materials \$115/drum</p> <p>Dioxin Producing Materials \$8.00/lb Minimum price is 5 gallons for \$175</p> <p>Unknowns Small quantity items (1 gal. or 5 lbs. or less) \$1.10/lb and \$9.00/gal Large Quantity items - \$5.00/gal</p>

Section II - Products

The products and contracts in this section can help you manage, store and clean up hazardous materials, as well as help to close the recycling loop by purchasing products made from recycled materials.

Products	Contract Name/Number
♦ Remanufactured Antifreeze	Antifreeze, Remanufactured Contract #VEH18A
♦ Re-Refined Motor Oil	Oil, Re-Refined Contract #VEH18A
♦ Recycled Latex Paint, interior and ext. ♦ Recycled Epoxy Paint	Paint Recycled Contract #FAC07
♦ Janitorial Cleaning Products	Cleaning Products, Environmentally Preferable Contract #GRO04
<u>Hazardous Material Management</u> ♦ 55 gallon steel drums ♦ Absorbents (various types) ♦ Spill Pallets & Drum Funnels ♦ Storage cabinets ♦ Hazardous Material Signs ♦ Safety Supplies (e.g. first aid, eye wash, spill kits, etc.)	Industrial Supplies Contract #FAC04
♦ Lumber ♦ Sealers ♦ Hardware ♦ Plumbing Supplies ♦ General construction & repair products	Building Supplies Contract #FAC02

See pages 11-17 for contract details

Anti-Freeze, Recycled

Contract Information

Contract #: VEH18A
 Expiration Date: 8/16/00
 four possible extensions of 1-year each
 OSD Update #: 00-6

Contract Summary

This contract provides recycled anti-freeze made from 100% recycled ethylene glycol, as part of the Motor Oil and Other Lubricants Contract. The awarded contractor, Antifreeze Technology Systems (ATS), also offers, at no cost, the **collection of spent anti-freeze** as part of this contract assuming that product is being purchased or sufficient amounts are available for collection. Departments should contact the vendor for more details.

All material is screened for quality before undergoing a variety of mechanical and chemical processes to ensure product quality. Recycled antifreeze meets a variety of vehicle manufacturer and ASTM standards, including, but not limited to:

Vehicle Standards	ASTM Standards
<ul style="list-style-type: none"> • GM 1825-M • Ford ESE-M97B44-A • Chrysler MS7170 and SAE J1034 	<ul style="list-style-type: none"> • ASTM D4340 (aluminum corrosion test) • D1177 (freezing point concentrate) • D1120 (boiling point concentrate) • D1122 (specific gravity concentrate) <p><i>See OSD update for other standards</i></p>

Awarded contractor:	Antifreeze Technology Systems
Contact:	Nancy Hamory (800) 799-4449 or (603) 432-4444

Product	Pricing	
Recycled Antifreeze	\$3.25	1 gallon
Ready-to-use	\$123.75	55 gallon drum
	\$2.25 / gal	bulk – 250 gallon minimum
Recycled Antifreeze	\$5.75	1 gallon
Concentrate	\$262.35	55 gallon drum
	<i>bulk not available</i>	

This vendor also offers windshield wiper solvent (not available as recycled) – please see the OSD update for more information.

Motor Oil, Re-Refined

Contract Information	Contract #: VEH18A
	Expiration Date: 8/16/00
	four possible extension of 1-year each
	OSD Update #: 00-6

Contract Summary

This is a multi-year contract for re-refined motor oils, hydraulic oils, transmission oils and a variety of other lubricants such as brake fluids, marine oils and greases. Motor oil is available only as a re-refined product, while hydraulic oils, transmission fluids and marine oils are available in both re-refined and virgin forms. Other products are available only in virgin form. This contract also offers remanufactured anti-freeze and virgin windshield solvent (see above), as well as "Vegetable-Based Lubricants" which are biodegradable and pose a minimized threat to the environment in case of leaks or spills.

All re-refined motor oil is American Petroleum Institute (API) certified. Re-refined oil will not void vehicle warranties according to GM, Ford, Chrysler, heavy-duty equipment manufacturers and most foreign auto manufacturers, and meets the same performance requirements as virgin oils. All re-refined oils are made from 100% re-refined base stock, except 15W40, which includes 75% re-refined content. Call OSD for names of satisfied agency users or other information regarding the performance of re-refined oil.

Oil Products Available	
<u>Motor Oils (re-refined only)</u> 5W30, 10W30, 15W30, 20W, 30W, 40W	<u>Hydraulic Oils (virgin and re-refined)</u> Tractor Oil, AW32, AW46, AW68
<u>Transmission Fluids (virgin and re-refined)</u> ATF, ATF type F, TF type C4	<u>Specialty Oils</u> Marine Oil, Caprinus U40
Various greases and brake fluids	

Vegetable Based Lubricants	
Hydraulic fluid ISO 32 2 cycle, air cooled oil 2 cycle, water cooled oil bar & chain oil	Concrete Form Oil Dust Control Tractor Oil Grease

Motor Oil, Re-Refined (cont'd.)

Sample Pricing

Paint, Recycled

Contract Information:

Contract #FAC07
Expiration Date:9/14/99
One 1- year extension left
OSD Update #98-10

Contract Summary

Recycled latex paint includes between 50% and 100% post-consumer content from surplus paint collected in household hazardous waste or residential paint collection programs. Minimum orders for all paint types is 10 gallons. Orders under 25 gallons come in five stock colors. Vendor will color match and custom blend for orders of 25 gallons or more. Call OSD for names of satisfied agency users.

Cleaning Products, Environmentally Preferable

Contract Information:

Contract #GRO04
Expiration Date: 11/01/00
One 1-year extension left
OSD Update #: 99-31

Contract Summary

This contract is the result of an inter-agency team effort to reduce the environmental impact of cleaning products and improve worker and building occupant health and safety conditions. The team developed in-depth health and environmental criteria to evaluate cleaning products available for state contract. The team evaluated the performance of accepted cleaning products during a 2 month trial during the summer of 1998. For more on the criteria, product pricing, please see the OSD update on Comm-PASS or call one of the contacts below.

Contracts have been awarded in the following categories:

- ♦ General/All Purpose Cleaners
- ♦ Glass/ Window Cleaner
- ♦ Disinfectant
- ♦ Floor Cleaner (not strippers or waxes)
- ♦ Degreasers
- ♦ Stainless Steel/ Kitchen Cleaner
- ♦ Tub and Tile Cleaners
- ♦ Toilet Bowl Cleaners
- ♦ Carpet Cleaners

Industrial/Commercial Supplies

Contract Information:

Contract #FAC04
Expiration Date:10/01/2003
OSD Update 98-52

Contract Summary

This contract offers products in twelve categories through industrial supply houses and/or stores. Prices are based on a range of discounts off the lowest available price. Products are available through catalogs, phone orders, or store locations. The companies listed below are the two statewide awarded contractors.

Awarded Contractor #1

Albeco Fasterner & Supply Corp.

Contact:

Fred Belcher 617-965-8840

Albeco has teamed up with A&A Industrial Supply to provide a wide range of products designed to help highway / public works / transportation facilities comply with environmental regulations, clean up spills and manage hazardous materials appropriately and safely. Some of the products offered through this arrangement include:

- ◆ drum funnels*
- ◆ haz. Material storage cabinets
- ◆ 55 gallon drums*
- ◆ absorbents*
- ◆ spill containment pallets*
- ◆ gloves, goggles, spill kits*
- ◆ fire extinguishers
- ◆ labels, stickers, posters

**Many of these products are available with recycled content - check with the vendor for details.*

Awarded Contractor #2

W. W. Grainger, Inc.

Contact:

Regina Tsoupelis, 888-994-4627

Grainger offers a wide variety of industrial supplies and will supply a catalogue upon request. Hazardous material management supplies may be obtain from Grainger as well.

Integrated Pest Management

Contract Information:

Contract #ST8J181

Expiration Date: 06/03/2001

OSD Update #00-20

Contract Summary

In conjunction with an Executive Order recently signed by the Governor, which requires all state agencies to use an **Integrated Pest Management (IPM)** approach to pest control, the Facilities Procurement Management Team (PMT), in cooperation with the Department of Food and Agriculture, has established a statewide contract to provide IPM services. IPM helps to reduce use of toxic pesticides through an integrated approach to pest control which uses continuous monitoring, small scale maintenance to plug holes, examination of cleaning and trash services and any other activity which may affect the level of pest infestation. IPM avoids the regular or indiscriminate spraying of pesticides common to traditional practices.

This contract provides users with a pre-qualified list of contractors experienced in IPM. To obtain price estimates, users should provide to prospective contractors specific information about the site which needs pest control services and schedule a site visit by selected companies. Contractors will then provide a proposal of the pest control services to be provided with a price estimate. Facilities may then choose a contractor based on pricing and/or the preferred proposal.

Below is the list of awarded contractors as of 12/31/98. To obtain the most updated list, periodically check www.comm-pass.com or call one of the state contacts.

UST Testing and LSP Services

Contract Information:

Contract #ST8J212

Expiration Date: 12/31/2001

OSD Update #98-12

Contract Summary

The statewide contract for Underground Storage Tank (UST) Testing and Licensed Site Professional (LSP) Services includes a list of sixteen pre-qualified vendors. Services include:

- ◆ UST Tightness Testing (Non-volumetric and Volumetric Methods)
- ◆ LSP Services
- ◆ Professional Engineering (PE) Services
- ◆ Product Transfer Costs
- ◆ Product Disposal Costs (Liquids and Solids)
- ◆ Laboratory Testing Costs (Contamination-Liquids and Solids)
- ◆ Temporary Fuel Storage

The contract covers this wide range of services so that agencies will have the means to easily meet regulatory and Clean State deadlines. It also allows for timely response to leaking USTs as well as providing easy, fast access to LSP and engineering services.

This contract covers all aspects of UST testing and the services necessary to deal with problems that may be encountered after testing. It should be noted that it **DOES NOT** provide for the actual removal of a UST. Removals are site specific and therefore could not be covered under this contract. The LSPs may, however be used to create the specifications needed for the tank removal so that agencies can save time and money when putting a tank removal project out to bid.

Tradespersons

Contract Information:	Contract #ST8J601 Expiration Date: 12/15/00 (with 2 additional 1-year extensions) OSD Update #: 00-13
----------------------------------	--

The Statewide Contract for Tradespeople currently involves approximately 355 contractors for various types of repair and maintenance. This contract went into effect December 15, 1997 and will expire December 15, 2000 with two options to renew at twelve months each.

WHAT does this contract offer Departments?

- Quick and easy access to a wide variety of Tradespeople, including: plumbers; electricians; roofers; general contractors; and others
- Pre-qualified list of 355 Contractors throughout Massachusetts
- Quick response for Emergencies with no bids required

WHAT are contractor requirements under ST8J601?

- Contractor is required to pay prevailing wage rates and submit weekly payroll reports to user Department (these are available from Dept. of Labor and Workforce Development)
- Prevailing wage rates will be updated every 90 days and posted on Comm-PASS
- Prices may be requested for a complete job, by hourly rate plus materials or by hourly rate - all prices may be negotiated
- Contract may only be used for jobs with a total value of <\$10,000 (this is not a cumulative total, only a per job limit)
- Where required by law, Contractors must possess a valid license/registration
- Contractors must secure any and all necessary permits required prior to commencing work on any job

NEW benefits to Departments under ST8J601

- Quick and easy access to all types of services - no need to design complex specifications and Contractor requirements
- Departments reduce/eliminate their own contract management responsibilities and save time administratively

HOW to obtain services

- A list of awarded contractors can be viewed at the Comm-PASS web site (www.comm-PASS.com) under the Facilities Procurement Category and/or the listed contract number
- To obtain services, call one or more vendors to request information on timing, availability and job estimates

Environmental & Maintenance Diagnostic Testing Services

Contract Information:

Contract #ST8H141

Expiration Date: 4/7/2000

OSD Update #: none

Contract Summary

The Statewide Contract for various types of environmental diagnostic testing has been awarded to 24 contractors. This contract currently covers the following types of testing: Fire Extinguisher; Indoor Air Quality; Soil, Water, Hazardous Material Characterization; Asbestos; Lead; Title V Septic System Inspection and Lab Services.

What does this contract offer Departments?

- Quick and easy testing services
- An easier way to maintain compliance with environmental guidelines
- Several contractors to choose from in each of the various testing categories

What are contractor requirements under ST8H141?

- Contractor is required to conduct tests for any category they have been approved for
- Strict insurance and licensing requirements have been met by all awarded contractors
- Contractors must maintain up-to-date licenses and certifications applicable to each category

NEW Benefits to Departments Under ST8H141

- Ability to insure and maintain compliance with environmental regulations
- Departments reduce individual and environmental exposure to toxins and reduce "sick building" environments
- Contractors may assist departments with developing RFR/specifications for any remediation which needs to be done and contractor may make recommendations (contractors may not actually do any removal/remediation)

Environmental Compliance Auditing Services

Contract Information:

Contract #ST8H142
Expiration Date: 3/31/2000
OSD Update #: none

Contract Summary

The Facilities Procurement Management Team (PMT) has awarded contracts to perform comprehensive, multi-media environmental audits of state facilities to assess the facilities' compliance with local, state and federal environmental laws. Awarded contractors/auditors will collect, analyze, and interpret appropriate information about each assigned facility and its operations, identify all instances of regulatory non-compliance, develop corrective action plans for each identified violation, including time and cost estimates for implementation, and identify pollution prevention measures to help prevent future non-compliance.

Regulatory issues to be addressed include, but are not limited to, air emission control and permitting, asbestos management, wetlands protection, wastewater treatment and disposal, drinking water supply, right-to-know, emergency and contingency planning, PCB management, hazardous waste management, solid waste management, contaminated site cleanup and underground storage tank management.

The auditor will identify all confirmed or potential violations of state and federal environmental laws and regulations. The auditor will also identify confirmed or potential violations of any permits or enforcement documents that have been issued to the facility under those laws and regulations. All areas of a facility where there are known or suspected structures, equipment, materials, waste, discharges or contamination will be investigated.
